RLX SATORI
Mental Fitness Lounger

Think of it as a Gym for your brain

Found in the world's most exclusive wellness centers, clinical health environments, behavioral change clinics, therapeutic & rehabilitation centers and allopathic hospitals, Gharieni's Satori is a complete natural vibrational and binaural sound treatment, designed to fully synchronize body and mind.

This combination of mind-body stimulation is a powerful and effective tool for changing neural pathways and creating healthy behaviors. Binaural Vibroacoustic treatment has been clinically proven to create behavioral change in people recovering from stress, anxiety, sleeping disorders, and addictions, as well as in people looking to reduce stress symptoms and increase a calmer state in their lives.

The lounger utilizes proprietary technology that releases specific sound frequencies that permeate the entire body. Additionally, synchronized binaural sounds and music, sometimes accompanied by guided meditation, guides brainwave patterns to states of relaxation, meditation, deep sleep, and heightened mental focus.

The Technology

All Satori programs utilize audio vibrations, or sine waves, embedded into a multilayered sound technology called Quantum Harmonics™.

These sound frequencies, when precisely delivered, create synchronization between the brain's left and right hemispheres.

This hemispheric synchronization results in a quieting of the mind, allowing deep relaxation, meditation, and dreamless sleep to occur.

Through repeated use, this entrainment process allows new neural pathways to be created, promoting lifelong behavior changes.

The Benefits

- Mental Fitness & Brain entrainment
- Evidence-based for low-energy, lack of sleep, anxiety & stress states
- Supports behavioral change including weight reduction & addiction recovery
- Mental Clarity, improved Focus & emotional Balance

The multi-award winning Satori offers a non-invasive approach to delivering reliable and favorable outcomes without the need for medications, supplements, mechanical implements or electrical stimuli.

The Satori Programs

The Satori System offers a selection of nine modules, each with 4-6 programs. There are five voice-guided programs in English with a total of 40 programs. The additional demo-program provides an introduction to the Satori technology.

All of the relaxation and meditation programs guide the brainwaves to alpha and theta levels.

BREATHE - Meditation through breathwork (non-verbal)

A series of six meditation programs with non-verbal breath work cues. The program is designed for people with english language barriers.

CHAKRA Alignment Meditation (non-verbal)

A series of six programs designed to align each Chakra of the body, while guiding brainwaves to a deep meditative state.

GAMMA Meditation (non-verbal)

A series of four Gamma wave programs for better focus, memory retention and mental clarity. The Gamma Meditation program involves Gamma brainwaves, which improve cognitive function and memory and are associated with compassion and gratitude.

Vibrational Wellness (Two guided, two non-guided programs)

A series of two guided, two non-guided programs ranging from 16 minutes to 50 minutes, focusing on mind/body wellness and healing.

Meditation and Energy Balance (voice guided)

A series of 6 programs ranging from grounding and stress reduction to energetic cleansing and mind-body regeneration

Sleep Wave (non-verbal)

The Sleep Wave program offers two programs. They range from programs for relaxation, meditation, sleep, positive self-image, brain fitness and behavioral change

Satori Sound Change - Tobacco Cessation Support (voice guided)

A series of four behavioral change programs to be used in succession.

Satori Sound Change - Recovery Support (voice guided)

A series of four behavioral change programs to be used in succession.

Satori Sound Change - Weight Management Support (voice guided)

A series of four behavioral change programs to be used in succession

“
I really felt like I left wherever I was, I was somewhere else.
Basma Kholief, PR & Partnership Lead at Cruise Saudi

Specifications

TECHNICAL SPECIFICATIONS:

- Access height: 42 cm (16.5 in)
- Length: 190 cm (74.8 in)
- Width: 73 cm (28.9 in)
- Load capacity (inc. tilting): 160 kg (353 lbs)
- Total weight of lounger: 92 kg (203 lbs)

FEATURES:

- Adjusts electrically to zero gravity position
- Integrated Smart-Thermo heating system
- 4 Tactile Sound Transducers
- Neck Support Cushion
- Headphones
- Includes tablet with stand
- International voltages available 100-240v 50-60hz
