Work height	99 cm
Power	96 W
Terrry Cloth Cover	61849
Lower Arm Support	61851

LOWER ARM SUPPORT

We have designed ergonomic support to relieve podiatrists during their work. This L.A.S. (Lower Arm Support) can be easily mounted on any Bentlon chair.

This product is not focused on the comfort of the client, but rather on the podiatrist workload. In a podiatry clinic, podiatrists perform physical labor every day. The job requires precision, focus and prolonged muscle tension. Podiatrists mainly experience discomfort from strained postures caused by the need to bend over to get a good view, combined with the continuous lifting of their arms while removing calluses, cracks and cutting nails.

The L.A.S. ensures that the lower arm is supported, so the weight of the upper arm, forearm and hand is not entirely carried by the back and shoulder muscles. With the L.A.S., the treatment chair can be positioned higher. This leads to a more upright posture for the lower back and neck.

Additionally, nail dust and other debris are collected in a removable tray.

HOW TO USE?

- The L.A.S. can be adjusted to three different angles. Choose the angle that best suits your working position. This flexibility ensures that your arm is supported.
- Rest your lower arm on the support while working on the client's feet. The support will bear the weight of your arm, reducing the need for your shoulder and back muscles to carry it.
- The removable tray collects nail dust and other debris during treatments. After each session, simply remove the tray, empty it and clean the support.

How to use?
Watch the video here

It's important to maintain a straight back, with a relaxed posture in your arms and shoulders!

3D LEG SUPPORT

With the 3D Leg Support, you can tilt the leg supports forward by means of the unique 3D function. As a result, the knee bends in a position that creates a comfortable and ergonomic sitting position for your client. Also, the mobility of the feet of the client is increased, which makes it easier to work for you as a podiatrist on the various foot zones. The leg supports consist of two parts and can therefore be adjusted in length. This results in better support of your client's calf and is ideal for people with long legs.

HOW TO USE?

- Press the gas spring lever on the outside of the leg support to easily lower the leg rest. You can also raise the leg rest without using the lever.
- Once the leg support is in the correct position, release the upper handle to extend the upper leg support for optimal knee hold support.
- By lifting the lower lever, you can fully extend the leg rest.
- The 3D leg support can be pulled forward at the front, allowing the upper part of the leg support to optimally support the user's lower leg.

The 3D Leg Support is only available for the Podo chair Gold or Platinum.

ACCESSORIES

TREATMENT CHAIR

Compatible with all Podaitry and Beauty chairs.

Chair cover

REF 61051

Safeguard your treatment chair's upholstery and prolong its lifespan effortlessly with our terrycloth chair covers. Each cover is meticulously tailored to fit your specific treatment chair, ensuring a snug and flawless fit. Choose from a selection of colors including white, grey, or black to match your preference and style.

Lower Arm Support

REF SINGLE 61854 | Double 61851 | Beauty 61853

Forearm suport during pedicure treatments, promoting a more ergonomic sitting position and relief of the muscles in the shoulders, back and neck. The Lower Arm Support is suitable for all Bentlon treatment chairs with the exception of treatment chairs with 3D and electric leg supports.

Casters

REF 61099

Caster wheels make it possible to easily move the treatment chair and, thanks to the rubber tread, they do not leave scratches behind. Integrated brakes make it possible to lock the casters allowing the treatment chair to be locked in place during treatments.

Paper roll holder

REF Arm holder 61086 | Leg holder 61087

Protect your treatment chair cover and upholstery from wax or other products using a paper roll holder. The paper roll holder can be optionally attached to the armrest or footrest.

Manicure bowl

REF 61080 + 61079

Prepare your client's nails for the manicure or give an extra dimension to your treatments with a hand bath. The manicure bowl can be mounted on all Bentlon chairs by means of a chrome bracket.

Massage headrest

REF 61083

The breathing hole in the massage headrest provides additional comfort for the client, especially during treatments or massages of the back. The massage headrest is suitable for any treatment chair with a removable headrest and is available in 35 colors.

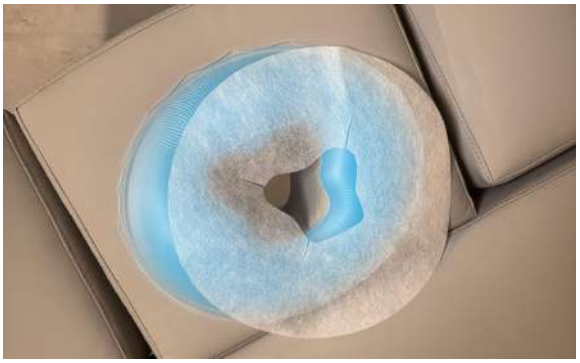
WELLNESS

TREATMENT BED SOSOFT

The Bentlon Treatment bed SoSoft is the ultimate combination between a sleek, modern design and a luxurious look. Thanks to the two column actuators and extra-wide seating, the treatment bed offers optimal stability and high level of comfort. Moreover, it also makes the SoSoft the best partner for body treatments and massages. The optional thermo function ensures an extra relaxing experience during the execution of your services.

The base is available in five different patterns. Match the base with one of the upholstery or wrapping colors so that the treatment bed will always align perfectly with your salon concept. The Bentlon treatment bed is available in two different models: Bronze and Gold.

Gel Pad for Treatment Bed & Hygienic Tissue



REF 62010 + 62011

The Gel Pad offers a comfortable, supportive surface for treatments, while the Hygienic Tissue provides a clean, safe, and convenient way to maintain cleanliness during each session. Both products are designed to enhance the client experience with practical functionality and hygiene in mind.

TREATMENT BED SOSOFT

VAPOZONE® PLATINUM

60280

The Bentlon Vapozone Platinum goes beyond standard features with its innovative standby function, keeping the water at an optimal temperature for instant activation of any of the 9 steam strengths. This eliminates warm-up time, enhancing efficiency during treatments. The integrated socket and stable top plate allow for power connection of additional beauty equipment, keeping cables neatly out of sight. A built-in magnifying lamp holder adds to its versatility, making it a perfect all-in-one solution for even the smallest spaces. With a durable, impact-resistant reservoir and dry boil protection, the Vapozone Platinum is built for safe, long-term use. Its 1.75-liter capacity ensures extended operation, while the rotatable steam arm provides effortless flexibility. The LED water level indicator adds much convenience.

The Vapozone Platinum is available in White, grey or black color.

TABOURETS
BENTLON WORKSTOOLS

A tabouret is a low work chair widely used by beauticians and podiatrist. An ideal positioning is of great importance for good working posture and is therefore a crucial element in salon design.

As a therapist it is really important to take care of your ergonomical sitting position. That's why Bentlon offers a wide range of tabourets in different sizes, colors and shapes, so you can make the ideal choice and did you know that you can order your tabouret in the same color as your treatment chair?

All tabourets are equipped with a stable five legged base with casters. The height is infinitely variable with a hydraulic gas pressure spring. In most models, the backrest can be adjusted both in height and depth so that you can adapt the correct sitting position.

CABINETS
& INSTRUMENT TABLES

With the Bentlon instrument tables and cabinet range, you always have the products you need for treatments nearby. Thanks to the casters, they are easy to move, even in the middle of service. The Bentlon instrument tables are available with two or three shelves. If desired, a drawer can be added under one or more shelves. The instrument tables are suitable for placing equipment in or on them. By using a designated holder, a magnifying lamp can also be attached to the instrument table.

INSTRUMENT TABLES

Loupelamp holder	REF. 61305

ULTRASONIC CLEANER

50570

The Bentlon Ultrasonic Cleaner heats the liquid in the tank to 65° C, so that even greasy instruments are cleaned more efficiently. High-frequency vibrations generate millions of small air bubbles that release the dirt particles. Our extra powerful ultrasonic cleaner, with a capacity of 2.6 liters, removes dirt and grease from even the smallest instruments. The fast cleaning time of 90 seconds to 8 minutes makes this the perfect ultrasonic cleaner for frequent and professional use.

Width	26,4 cm
Depth	16,4 cm
Height	8 cm
Power	170 W

Automatic stop time	✓

HOT CABINET

50625

No more messing around with water and compress bins thanks to the Hot Cabinet. The Hot Cabinet has a capacity of 18 liters, which means that 50 compresses can be heated simultaneously. When switched on, the towel warmer automatically starts the heating process. When the set temperature is reached, the towel warmer is automatically kept at the desired temperature. The micro-computer, which not only controls the temperature also protects the against overheating.

Width	45 cm
Depth	31 cm
Height	36 cm
Capacity	50 handtowels
Warm-up time	15 min
Automatic stop time	✓
Power	200 W

INTERIOR CLEANSER

CLEANER01

It is a powerful cleaner and degreaser, designed for the thorough cleaning of upholstery, furniture and suitable for various surfaces such as fabric, leather, wood and plastic.

Emulsifies dirt and works deep into the upholstery for cleaning even in hard-to-reach areas. This product is free from toxic ingredients. Perfect for removing residue from mineral, vegetable and animal oils, as well as greasy surfaces.

It is also excellent for maintaining color and caring for upholstery.

BENEFITS

- Multifunctional: Suitable for the entire Bentlon range. The SoSoft PU leather, Skai® upholstery, wood and all covers of the Bentlon Chairs
- Powerful Cleaning: Effectively removes dirt, grease and stains for a deep cleansing
- Safe for all Bentlon Materials: Gentle yet effective, ensuring no damage to surfaces while providing a thorough clean
- Time-Saving: Cleans and degreases in one step
- Easy to Use: Simple application with fast results
- Fully biodegradable human-, environment- & material friendly

HOW TO USE?

Just spray it on the surface and wipe clean with a soft cloth!
